

List of Publications

1. Newal Kishore and Anurag Jayswal, Prioritized goal programming formulation of an unbalanced transportation problem with budgetary constraints, "*Industrial Engineering Journal*" XXX (2001) 16-19.
2. Anurag Jayswal and Newal Kishore, An additive fuzzy programming model for bilevel linear programming problem, "*International Journal of Mathematical Sciences*" 1 (2002) 157-162.
3. Newal Kishore and Anurag Jayswal, Prioritized goal programming formulation of an unbalanced transportation problem with budgetary constraints: A fuzzy approach, "*Opsearch*" 39 (2002) 151-160.
4. Newal Kishore and Anurag Jayswal, An alternate method of solving multi-objective linear fractional programming problem, "*Proceeding of the International Conference on Analysis and Applications*" Dec. 22-25, (2003) 248-255.
5. Newal Kishore and Anurag Jayswal, Prioritized unbalanced transportation problem with multiple fuzzy goals, "*Industrial Engineering Journal*" XXX11 (2003) 13-19.
6. Anurag Jayswal, Non-differentiable minimax fractional programming with generalized α -univexity, "*Journal of Computational and Applied Mathematics*" 214 (2008) 121-135. IF-2.1 Q1
7. Anurag Jayswal and Rajnish Kumar, Some nondifferentiable multiobjective programming under generalized d - V -type-I univexity, "*Journal of Computational and Applied Mathematics*" 229 (2009) 175-182. IF-2.1 Q1
8. Z. Husain, Anurag Jayswal and I. Ahmad, Second order duality for nondifferentiable minimax programming problems with generalized convexity, "*Journal of Global Optimizations*" 44 (2009), 593-608. IF-1.407 Q1
9. Anurag Jayswal, On sufficiency and duality in multiobjective programming problem under generalized α -type I univexity, "*Journal of Global Optimizations*" 46 (2010) 207-216. IF-1.407 Q1
10. Anurag Jayswal, Dilip Kumar and Rajnish Kumar, Second order duality for nondifferentiable multiobjective programming problem involving (F, α, ρ, d) - V -type I functions, "*Optimization Letters*" 4 (2010) 211-226. IF-1.013 Q2
11. Ravi P. Agarwal, I. Ahmad and Anurag Jayswal, Higher-order symmetric duality in nondifferentiable multiobjective programming problems involving generalized cone convex functions, "*Mathematical and Computer Modelling*" 52 (2010) 1644-1650. IF-1.41 Q1
12. S. K. Gupta and Anurag Jayswal, Multiobjective higher-order symmetric duality involving generalized cone-invex functions, "*Computers Mathematics with Applications*" 60 (2010) 3187-3192. IF-1.860 Q1
13. Ravi P. Agarwal, I. Ahmad, Z Husain and Anurag Jayswal, Optimality and duality in nonsmooth multiobjective optimization involving V -type I invex functions, "*Journal of Inequalities and Applications*" 2010 (2010), Article ID 898626. IF-0.966 Q1
14. Anurag Jayswal and Ioan Stancu-Minasian, Multiobjective subset programming problems involving generalized D -Type I univex functions, "*Proceedings of the Romanian Academy, Series A*" 11 (2010) 19-14. IF 1.402
15. Anurag Jayswal, I. Ahmad and S. Al-Homidan, Sufficiency and duality for nonsmooth multiobjective programming problems involving generalized $(F, \alpha, \rho, \theta)$ - d - V -univex functions, "*Mathematical and Computer Modelling*" 53 (2011) 81-90. IF-1.41 Q1
16. Anurag Jayswal and Ioan Stancu-Minasian, Higher-order duality for nondifferentiable minimax programming problem with generalized convexity, "*Nonlinear Analysis: Theory Methods & Applications*" 74 (2011) 616-625. IF-1.291 Q1
17. I. Ahmad, S. K. Gupta and Anurag Jayswal, On sufficiency and duality for nonsmooth multiobjective programming problems involving generalized V - r -invex functions, "*Nonlinear Analysis: Theory Methods & Applications*" 74 (2011) 5920-5928. IF-1.291 Q1

18. Anurag Jayswal and Ioan Stancu-Minasian, I. Ahmad, On sufficiency and duality for a class of interval-valued programming problems, “*Applied Mathematics and Computation*” 218 (2011) 4119-4127. IF-2.300 **Q1**
19. Anurag Jayswal and Dilip Kumar, On nondifferentiable minimax fractional programming involving generalized (C, α, ρ, d) -convexity “*Communication on Applied Nonlinear Analysis*” 18 (2011) 61-77.
20. Anurag Jayswal, I. Ahmad and Dilip Kumar, Nondifferentiable minimax fractional programming problem with nonsmooth generalized convex functions, “*Communication on Applied Nonlinear Analysis*” 18 (2011) 57-75.
21. Anurag Jayswal, Optimality and duality for nondifferentiable minimax fractional programming with generalized convexity, “*ISRN Applied Mathematics*” (2011) **2011**, Article ID 491941.
22. Anurag Jayswal, Rajnish Kumar and Dilip Kumar, Multiobjective fractional programming problems involving (p, r) - $\rho(\eta, \theta)$ -invex function, “*Journal of Applied Mathematics and Computing*” 39 (2012) 35-51. IF-2.4 **Q1**
23. Anurag Jayswal, I. M. Stancu-Minasian and I. Ahmad, On sufficiency and duality in multiobjective programming problem involving $B-(p, r)$ -type I functions, “*Lecture Notes in Engineering and Computer Sciences, WCE 2012, London U.K. dated 4-6 JULY*, Vol. 1, (2012) 12-17.
24. Anurag Jayswal and I. M. Stancu-Minasian, On sufficiency and duality in multiobjective subset programming problems involving generalized d -type I univex functions, “*Journal of Applied Mathematics and Informatics*” 30 (2012) 111-125.
25. Anurag Jayswal, I.M. Stancu-Minasian and Dilip Kumar, Minmax fractional programming problem involving generalized convex functions, “*Reveu D'analyse Numerique De Theorie De L'approximation*” 41 (2012) 48-61.
26. I. Ahmad, Ravi P. Agarwal and Anurag Jayswal, Higher order duality in nondifferentiable fractional programming involving generalized convexity, “*Journal of Computational Analysis and Applications*” 15 (2013) 1444-1455. IF-0.609 **Q4**
27. Anurag Jayswal and Dilip Kumar, Second order duality for minimax fractional programming involving generalized Type I functions, “*Maejo International Journal of Science and Technology*” 7 (2013) 145-154. IF-0.469 **Q4**
28. Anurag Jayswal, Ashish Kumar Prasad, I. Ahmad and Ravi P. Agarwal, Duality for semi-infinite programming problems involving (H_p, r) -invex functions, “*Journal of Inequalities and Applications*” (2013) **2013**: 200. IF-0.966 **Q1**
29. I. Ahmad, Anurag Jayswal and Jonaki Banerjee, On interval-valued optimization problems with generalized invex functions, “*Journal of Inequalities and Applications*” (2013) **2013**: 313. IF-0.966 **Q1**
30. Anurag Jayswal, Ashish Kumar Prasad and Krishna Kummari, On nondifferentiable minimax fractional programming involving higher order generalized convexity, “*Filomat*” 27 (2013) 1497-1504. IF-0.635 **Q3**
31. Anurag Jayswal, Ioan Stancu-Minasian and Ashish Kumar Prasad, On nonsmooth multiobjective fractional programming problems involving (p, r) - $\rho(\eta, \theta)$ -invex functions, “*Yugoslav Journal of Operation Research*” 23 (2013) 367-386.
32. Anurag Jayswal, Ashish Kumar Prasad and I. Ahmad, Second order multiobjective fractional symmetric duality over cone constraints, “*Communication on Applied Nonlinear Analysis*” 20 (2013) 33-46.
33. Anurag Jayswal, Jonaki Banerjee and R. U. Verma, Some relations between interval-valued optimization and variational-like inequality problems, “*Communication on Applied Nonlinear Analysis*” 20 (2013) 47-56.
34. Anurag Jayswal, Rajnish Kumar and Dilip Kumar, Minimax fractional programming problem involving nonsmooth generalized α -univex functions, “*An International Journal of Optimization and Control: Theories & Applications*” 3 (2013) 7-22.
35. Anurag Jayswal, Sarita Choudhury and Ram U. Verma, Higher order duality for variational problems involving generalized convexity, “*Transactions on Mathematical Programming and Applications*” 1 (2013) 68-81.

36. Anurag Jayswal, Ashish Kumar Prasad and I. Ahmad, Generalized (H_p, r) -invexity in multiobjective programming problems, "AMO-Advance Modeling and Optimization" 15 (2013) 801-813.
37. Anurag Jayswal, Ioan Stancu-Minasian, Izhar Ahmad and Krishna Kummari, On generalized minimax fractional programming problems with generalized nonsmooth $(F, \alpha, \rho, d, \theta)$ -univex functions, "Journal of Nonlinear Analysis and Optimization" 4 (2013) 227-239.
38. Anurag Jayswal, Ashish Kumar Prasad and Krishna Kummari, Nondifferentiable minimax programming problems in complex spaces involving generalized convex functions, "Journal of Optimization" 2013 (2013), Article ID 297015.
39. Anurag Jayswal, I. Ahmad and Ashish Kumar Prasad, On minimax fractional programming problems involving generalized (H_p, r) -invex functions, "Journal of Industrial and Management Optimization" 10 (2014) 1001-1018. IF-0.994 Q3
40. Anurag Jayswal, Ioan Stancu-Minasian and Izhar Ahmad, Second order duality for minmax fractional programming problem involving (F, α, ρ, d) -type I functions, "Bulletin of the Malaysian Mathematical Sciences Society" 37 (2014) 893-905. IF-0.840 Q1
41. Anurag Jayswal, Izhar Ahmad, Krishna Kummari and S Al-Homidan, On minimax programming problems involving right upper-Dini-derivative functions, "Journal of Inequalities and Applications" (2014) 2014: 326. IF-0.966 Q1
42. Anurag Jayswal and Ashish Kumar Prasad, Second order symmetric duality in nondifferentiable multiobjective fractional programming with cone convex functions, "Journal of Applied Mathematics and Computing" 45 (2014) 15-33. IF-2.4 Q1
43. Anurag Jayswal, Sarita Choudhary and R. U. Verma, Exponential type vector variational-like inequalities and vector optimization problems with exponential type invexities, "Journal of Applied Mathematics and Computing" 45 (2014) 87-97. IF-2.4 Q1
44. Anurag Jayswal and Krishna Kummari, Second order duality for nondifferentiable minimax programming problems involving generalized α -type-I functions, "Int. J. Mathematics in Operational Research" 6 (2014) 393-406.
45. Anurag Jayswal and Sarita Choudhary, An exact l_1 exponential penalty function method for multiobjective optimization problems with exponential-type invexity, "Journal of Operation Research Society of China" 2 (2014) 75-91.
46. Anurag Jayswal, I. Ahmad and Krishna Kummari, Duality for minimax fractional programming problems under second order (Φ, ρ) -invexity, "Dynamics of Continuous, Discrete and Impulsive Systems-A" 21 (2014) 153-169.
47. Anurag Jayswal and Ioan Stancu-Minasian, Higher-order duality for multiobjective programming problems involving (F, α, ρ, d) - V -type I functions, "Journal of Mathematical Modeling Algorithm in Operation Research" 13 (2014) 125-141.
48. B. K. Mishra, B. Mahato, Anurag Jayswal and R. Chandra, A mathematical model on acquired immunodeficiency syndrome, "Journal of Egyptian Mathematical Society" 22 (2014) 544-549.
49. Anurag Jayswal, Ioan Stancu-Minasian and Ashish Kumar Prasad, Wolfe type second order fractional symmetric duality, "Journal of Applied Analysis" 20 (2014) 155-165.
50. Sarita Sharma, Anurag Jayswal and Sarita Choudhary, Generalized α - V -univex functions for multiobjective variational control problems, "Control and Cybernetics" 43 (2014) 403-420. Q4
51. Anurag Jayswal and Sarita Choudhary, Convergence of exponential penalty function method for multiobjective fractional programming problems, "Ain Shams Engineering Journal" 5 (2014) 1371-1376. Q2
52. Anurag Jayswal, Izhar Ahmad and Ashish Kumar Prasad, Duality in multiobjective fractional programming problems involving (H_p, r) -invex functions, "Journal of Applied Mathematics and Informatics" 32 (2014) 99-111.

53. Anurag Jayswal, I. M. Stancu-Minasian, and A. M. Stancu, Multiobjective fractional programming problems involving ρ -semilocally type-I univex functions, “*South-East Asian Bulletin of Mathematics*” 38 (2014) 225-241.
54. Anurag Jayswal and Sarita Choudhary, Exponential type vector variational-like inequalities and nonsmooth vector optimization problems, “*Journal of Applied Mathematics and Computing*” 49 (2015) 127-143. IF-1.242 **Q1**
55. Anurag Jayswal, Ioan Stancu-Minasian, Jonaki Banerjee and Andrea-Madalina Stancu, Sufficiency and duality for optimization problems involving interval-valued invex functions in parametric form, “*Operational Research: An International Journal*” 15 (2015) 137-161. IF-1.816 **Q2**
56. Anurag Jayswal, Krishna Kummari and I. Ahmad, Sufficiency and duality in minimax fractional programming with generalized (ϕ, ρ) -invexity, “*Mathematical Reports*” 17 (2015) 183-200. IF-0.250 **Q4**
57. Anurag Jayswal, Izhar Ahmad and Krishna Kummari, Optimality conditions and duality in multiobjective fractional programming involving right upper-Dini derivative functions, “*Miskolc Mathematical Notes*” 16 (2015) 887-906. IF-0.585 **Q2**
58. Anurag Jayswal, Ioan Stancu-Minasian and Sarita Choudhary, Second order duality for variational problems involving generalized convexity, “*Opsearch*” 52 (2015) 582-596.

BOOK CHAPTER

1. Saddle-point criteria for PDE and PDI constrained variational problems on first-order jet bundle, Recent Advances in Nonlinear Analysis and Optimization with Applications, Cambridge Scholars Publishing House, (2020).
2. Interval-Valued Multi-Time Control Problem with Applications, Continuous Optimization and Variational Inequalities, CRC Press, (2023).

BOOKS

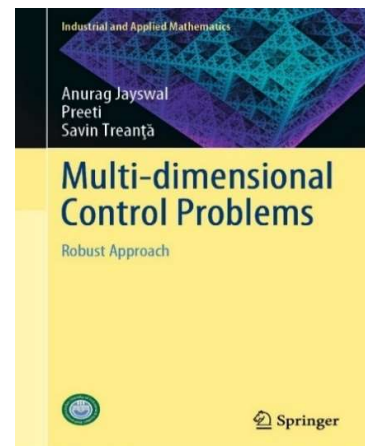

CONTINUOUS OPTIMIZATION AND VARIATIONAL INEQUALITIES

Editors: [Anurag Jayswal](#), Tadeusz Antczak

MULTI-DIMENSIONAL CONTROL PROBLEMS ROBUST APPROACH

Editors: [Anurag Jayswal](#), Preeti, Savin Treanta

Anurag Jayswal
